The Liberty Gas Grill

The Liberty Gas Grill is the perfect introduction to the superior performance of Holland Grills. Its indirect cooking system with stainless steel cooking grid and smoke stack regulated heat circulators cooks food based on time, not heat. This same indirect cooking system coupled with the drip pan eliminates flare-ups from scorching your food. Holland guarantees that you'll never experience a flare-up. It is built using a powder-coated aluminum shell for durability and sturdiness. Its cast iron burner comes with a lifetime warranty, so you'll never worry about your grill not starting up after a long winter.

Specifications
