**MAINERO MDD-200 ROW
INDEPENDENT CORN HEADER,
HARVEST ANY DIRECTION,
ANY ROW SPACING.**

Modern agriculture demands efficiency, productivity and innovation. The 3rd generation Mainero MDD-200 IRT headers exemplifies these qualities. This generation of the MDD-200 features Mainero's traditional narrow snouts & double offset sprockets enabling it to harvest any direction & any row spacing but now comes exclusively with IRT rollers. These Intermeshing, Reversible, Toothed rollers are designed specifically for U.S. growers and harvesting conditions.
